JAYESH PRATAP THAKARE

Contact : +91 8767483115 ◇ Pune,India
jayeshthakare142@gmail.com ◇ Linkedin : Jayesh Thakare ◇ GitHub:JayThakare241

OBJECTIVE

To begin my career in a dynamic organization where I can apply my knowledge of Full Stack Python and Data Science, contribute to real-world solutions, and grow my technical and analytical skills.

EDUCATION

Master of Computer Applications, Expected 2027
PES's Modern College Of Engineering,Pune

Bachelor of Computer Applications, 2022 - 2025
Prof.Ramkrishna More ACS College,Akurdi,Pune

SKILLS

Technical Skills •Python •HTML/CSS/JavaScript •Django •SQL •Data Science •Pandas, NumPy, Matplotlib
Soft Skills •Analytical Thinking •Adaptability •Teamwork •Problem Solving

EXPERIENCE

Data Science Intern June 2025 - Dec 2025
Unified Mentor *Remote, Pune*

- Concluded 6 data science projects throughout the internship.
- Examined 7+ datasets and made visualizations to identify key patterns and insights along with model building.
- Built and evaluated multiple machine learning and deep learning models for prediction on real datasets, achieving up to 89 percent accuracy.

Data Science Intern Jan 2026 - Ongoing
Innovexis *Remote, Pune*

- Completed 4 data science and machine learning projects.
- Cleaned and investigated 6+ datasets, generated visualizations, and built basic predictive models.
- Implemented multiple machine learning and deep learning algorithms for prediction tasks.

PROJECTS

Personalized Healthcare Recommendation System
Used patient data for analysis purposes. After analysing the data, I created an ML-based risk prediction model and finally gathered business insights and recommendations from the project. (GitHub Repo)

Used Bike Price Prediction
Used bike data to understand how long the bike is used and how it works. After EDA, I used a linear regression model for evaluation and prediction. I also performed heavy feature engineering on factors like CC, brand, mileage, power, etc. (GitHub Repo)

CERTIFICATIONS

- Full Stack Data Science and AI from NareshIT (Link)
- 2025 Python Bootcamp from Udemy (Link)
- 2025 Python and Django Framework for Beginners from Udemy (Link)
